PROFILE

Third-year Computer Science student at IUT du Limousin (France). During my internship at IT Partner I built and shipped three full-stack web applications to production (TypeScript, Next.js, Node.js, PostgreSQL, Docker). Trilingual in Mongolian, French and English, independent and quick to learn. Looking for a 16-week internship from March 2027 in France, elsewhere in Europe, in Mongolia or remote.

WORK EXPERIENCE

Full-Stack Web Developer Intern

Apr – Jun 2026

IT Partner, Ulaanbaatar, Mongolia · 10-week internship

Headless CMS inspired by Strapi

TypeScript · Node.js/Express · Prisma · PostgreSQL · Next.js

- Content-Type Builder that generates REST APIs automatically (14 field types, pagination, filtering, draft/publish).
- JWT authentication, role-based permissions (RBAC), API tokens; hardened with Helmet, rate limiting and Zod validation.
- Next.js admin panel: drag-and-drop content editor and media library with automatic thumbnails.
- PHP client SDK; deployed with Docker Compose and Nginx on a Linux server.

Mongolian Au Pair website · mongolian-aupair.com

Next.js 16 · React 19 · Tailwind CSS · PHP

- Live company website powered by the headless CMS: dynamic programme pages, FAQ, gallery, testimonials, contact form.
- Alternative PHP version consuming the same API.

correctURL: URL shortener with analytics

Next.js 14 · TypeScript · PostgreSQL · Docker

- Short links with custom slugs, click statistics and correct percent-encoding handling.
- Production hardening: Nginx rate limiting and bot filtering, Cloudflare, Fail2ban with an anti-spam honeypot.
